

How to give feedback

Please let us know your thoughts on the proposals. The main feedback form questions are set out alongside display boards 2-9, and ask about the information set out on each board. Board 1 includes questions about you, so that we can understand how different groups feel about the proposals. All information provided in this section will be for analysis purposes only, and will not be individually published. All of the responses against each question will be combined together.

We recommend that you open the Strategic Masterplan Supplementary Planning Document in a separate tab/window, for ease of reference when writing your responses.

You can use the 'list view' feature at the top of the main page to show which questions you have responded to. This also allows you to view and amend any responses you have already provided.
